REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Dorchester:

I hereby submit my eighth report as Superintendent of Schools. The statistical report for the year 1936-1937 follows this report.

At this writing there are 20 scholars attending the Cheever school. Three of these are from Groton. The progress is tested and retested from time to time, and every pupil appears to be working up to his capacity. The size of the school gives opportunity for individual help. Oral reading is being stressed this year so that when our young people are called on to read in public, they can do so in a creditable manner.

The school seems particularly wholesome and the children happy. There is some interest in the collection of stamps. Besides developing a pleasant hobby, this pastime may be made instructive in geography and history of the various issues. A yearly progressive school collection would be a worthwhile project.

The number of scholars sent outside the district is decreasing, and it is anticipated that it will be negligible in a short time.

Respectfully submitted,

ALLAN M. McCURDY,

Superintendent of Schools.
